CATALOG & PROMOTION

Cow Camp Promotions cowcamppromotions.com

Greetings;

On behalf of myself and the consignors I would like to welcome you to the MT Red Angus Association's 42nd Annual "Prestigious" NILE Red Angus Sale!! It has been a pleasure to be involved in the development of this sale!

The fact that this is their 42nd sale shows the commitment of this Association to its membership and the beef industry as a whole. The programs presenting this offering host some of the top production and bulls sales in the land so take advantage of them sharing the base of their program with you!

The current market trends are very positive and with calf prices as strong as they have ever been and the cattle numbers as low as they have been for many, many years – the outlook for the future is very bright. The demand for Red Angus cattle both as breeding stock and feeder cattle is tremendously strong. The offering of this provides you as buyers the opportunity to secure value-adding genetics that can advance your program significantly for the future!

If you are looking for females and genetics that can produce top-end individuals for both the commercial and seedstock industries, this offering provides a lot of opportunities for you. The open heifers in the offering have some outstanding show heifer prospects for Junior programs. These open heifers are out of top-end females and ET programs and will develop into great cows as well. The bred heifer offering is sired by breed-leading genetics and bred to some of best sires available!

The sale will be broadcast on Northern Livestock Video Auction for those that may want to bid online. Videos of sale offering will be available at NorthernLivestockvideo.com. The videos will be posted as they become available. If you have any questions regarding the offering, feel free to contact myself or any of the individual consignors about their consignments.

I would like to thank the Montana Red Angus and this group of consignors for the opportunity to work with them in presenting this sale which is being held in conjunction with the NILE Stock show in Billings.

I invite you to attend this sale which will be held on October 17, 2025 at the Montana Pavilion at 1 p.m. MDT!

Sincerely,
Jeff Thomas

DONATION HEIFER RAFFLE

To purchase raffle tickets for the Donation Heifer if not present please contact:

Luke Larson 406-207-6776

Tim Geib 406-480-5438

Drawing will take place at the conclusion of the sale.

We are honored and pleased to be selected to donate the 2025 MTRAA Donation Heifer. HRR Freya 520 goes back to the foundation sires and dams that formed the Heart River Ranch cow herd. Her 3-year-old dam, HRR Freya 357, originates from the Freyja cow family that goes back to the Holden and Boot Jack Ranches. This young dam is solid in her type and kind and is good uddered and solid footed. On the sire side, she is out of Ridge Rad 9075, our senior herd bull who has been used both AI and naturally in our herd and has been used AI in several commercial herds. Rad is a dark, cherry red bull out of a powerful dam, Ridge Casey 978-8034. This moderate-framed heifer is clean fronted, long bodied with rib capacity, is square hipped and good footed.

Watch for a video of this exciting young open heifer that has been offered by Heart River Ranch for the benefit of the Montana Red Angus Association. It will be posted on www.montanaredangus.org. Contact those listed if unable to attend and would like to purchase tickets!

Donation Heifer

The Donation Heifer is a gift to Montana Red Angus Association from generous donors. The heifer is raffled at the NILE Prestigious Red Angus Sale. Tickets are auctioned and a winner is drawn. The winner is announced at the conclusion of the sale. All proceeds are used for the promotion of the MTRAA membership and MTRAA programs. The following is a list of donors and the year they donated.

New!!!!

2026 JUNIOR PURCHASED FEMALE FUTURITY CLASS

We're also introducing an exciting new opportunity for 2025 junior buyers.

Juniors who purchase a heifer in the 2025 NILE Red Angus Sale will be eligible to return and show that female in the 2026 Junior Purchased Female Futurity Class, where they can earn sale credit toward the 2026 sale.

Juniors will need to pay the \$50 futurity entry fee and be a Montana Junior Red Angus member.

Females must be purchased by juniors at the time of the 2025 Prestigious NILE Red Angus Sale and they need to be transferred in the juniors' name.

Each female brought back to the futurity will receive \$250 sale credit toward current year NILE Red Angus Sale. Grand Champion will receive an additional \$1,000 sale credit toward current year NILE Red Angus sale and Reserve will receive \$500 sale credit toward current year NILE Red Angus sale.

Junior Purchased Females are also eligible to compete against the current year sale females for the overall champion.

This female has a poise about her that naturally demands your attention. She is a stylish, attractive female that moves free and easy across the pasture. This bred heifer offers natural thickness with width and dimension in a refined feminine package. She also yields a balanced set of EPDs. Her young dam has done an awesome job raising her first two calves and is dark red and tight uddered. Her sire, Stockyard, is a dense-made, thick-ended, deep bodied bull with uncommon blend of calving ease, performance, marbling and phenotype. 3C Schurrlly Sandy 4023 is bred to the ABS stud, Feddes Eastwood. He offers calving ease with rapid early growth, meshed with breed leading marbling and longevity. We have picked from the elite end of our bred heifers, and you don't want to miss this one!

Bred to Feddes Eastwood 3284 (#4787522) on 4/21/25. Pasture exposed from 4/25/25 – 6/10/25. Confirmed for a 1/28/25 calf.

A nice, well-balanced female from a consistent cow family that never misses. Her maternal great granddam is one of the highest performance cows that we've ever had. This cow line has not only been performance packed but also consistently above average for type and kind with lots of sale appeal to buyers. Sired by Stockman E116, an 8-year-old sire that is still serving as a pasture sire covering a large number of females every year. His daughters are some of the most productive, sound, good uddered females that we've ever had. 4110 will be this kind of female and will create ROI for her new owner. She carries the exciting service of NSFR Explosive M91, a high-selling Jumpstart son that sold this spring to Bullis Creek from Nordlund Stock Farm.

Bred to NSFR Explosive M91 (#4967706) on 5/28/25. Pasture exposed from 5/30/25 – 6/22/25 to NSFR Explosive M91 (#4967706). Confirmed for a 3/1/26 calf.

Check out this bred heifer that we've reluctantly but proudly consigned to the 2025 Prestigious NILE sale. She comes from a super cow family that goes back to a national champion female from Leachmans. Stout made, correct and easy on the eyes fit this heifer very well. She ranks in the top 14% for ProS, top 10% for HerdBuilder and 38% for GridMaster. Such a beautiful heifer that checks all the boxes for everything you are looking for in a top female and future donor dam. Make sure that you look her up sale day and take her home! She sells bred to one of 2025's high-selling young sires for an early March calf.

Bred to NSFR Explosive M91 (#4967706) on 5/28/25. Pasture exposed from 5/30/25 – 6/23/25 to NSFR Explosive M91 (#4967706). Confirmed for a early-March AI calf.

We consigned this powerful bred heifer to the NILE Red Angus sale because she represents our ranch very well. She is from the Minervina cow family which is one of the high-performing cow lines at Bullis Creek. Her sire is the highly proven Stockman E116 and a huge reason why she has a HerdBuilder index in the top 8% of the Red Angus breed. At 8 years of age, Stockman is still in use as a natural service seeing a large number of females every year. His daughters are easy keeping and correct with good udders and super dispositions. Here is a tremendous opportunity to add a top-end impact female to your program. She sells with breeding service to NSFR Explosive M91.

Bred to NSFR Explosive M91 (#4967706) on 5/28/25. Pasture exposed from 5/30/25 – 6/23/25 to NSFR Explosive M91 (#4967706). Confirmed for a 3/15/25 calf.

Here is a great opportunity to own a beautiful Miss Pan bred heifer. She is a complete female with a moderate frame, lots of muscle, quarter and a good foot and leg set. She expresses femininity in her front end and will make a top-producing cow in any herd. These Finish Product daughters have uniformity and consistency with a dark cherry red color. Dam is a complete, up-and-coming C-T Reputation cow with an exceptional phenotype, a deep body and a good foot and udder that we all seek. She is bred to the exciting young sire, PIE Cadillac 3289, high-selling bull at Pieper Red Angus in 2024. He offers calving ease, performance and carcass all with a picture-perfect phenotype. Don't miss this opportunity to buy into these breed-leading genetics.

Bred to PIE Cadillac 3289 (#4865308) on 4/17/25. Confirmed for a 1/25/26 calf.

This bred heifer has been an eye-catcher in the pasture since she was a calf. She stems from the consistent Chris cow family and puts femininity, udder quality, foot structure, performance and phenotype all into one package. She comes with a lot of personal performance posting a 104 WR and landing in the top 3% WW, 4% YW along with top 10% Marb. Her dam has been a very productive 5-year-old Spartacus cow that never seems to miss. She has loads of volume and rib shape along with great foot and udder quality. She is sired by the exciting upcoming HRP Raider 2020K bull that was one of the high sellers at the HanSine bull sale in 2023, purchased by Klompien Red Angus and C-T Red Angus. He has been adding performance and style, and sired a popular set of sons for Feddes/C-T and Klompien bull sales. This will be an exciting mating with the PIE Cadillac 3289 and I would expect a calf that will stand out in anyone's herd! Bred to PIE Cadillac 3289 (#4865308) on 4/17/25. Confirmed for a 1/25/26 calf.

This cow family needs no introduction here at the NILE sale. In fact, a maternal sister commanded strong attention when she sold at this very sale just two years ago. This bred heifer is truly special, big framed, powerfully built, and backed by a rock-solid pedigree. Not only does she hail from the elite Lakina cow family, but she is also the very first bred heifer we have ever offered out of our exciting herd sire, HRP Raider 2020K. We could not be more impressed with his progeny – growthy, stylish, sound footed and loaded with eye appeal. To top it off, she sells bred for a mid-February calf sired by our herd sire, MTM Rambler 387, a calving-ease specialist whose calves hit the ground easy and then explode with growth. This female combines a proven maternal foundation with fresh exciting genetics, making her a true herd builder. Opportunities to take home a bred heifer of this caliber are rare and we are confident she will make a lasting impact for her new owner.

Pasture exposed from 4/18/25 to 7/22/25 to MTM Rambler 387 (#4776483). Confirmed for a 2/13/26 calf.

408 is a long, stylish female who comes from a line of high-producing females with consistent fertility and quality milk production. Her dam was a founding member of our registered cow herd and an integral part of the herd that she was purchased from. She has produced multiple heifers we have kept in the herd and never regretted. She is wide across the top with a maternal sweep to her rib. A graceful traveler that fills her tracks with ease. Confirmed March bred to 3133 Granite, a bull from the 5L Profiteer and 5L Defender 560-30Z line. He brings a lot of power, muscle and next-level genetics to our herd. 408 is the type of female that makes you want to be in the Red Angus business.

Pasture exposed from 6/3/25 – 8/20/25 to LOOSLI GRANITE 3133 (#4838328). Confirmed for a 3/26/26 calf.

 FEDDES BLOCKANA 7174

This heifer is hard to fault phenotypically. She carries extra spring of rib, a very feminine front end with more than adequate thickness. Her dam is a favorite cow at the ranch boasting an MPPA of 104 with as good of feet, legs and udder as you can put on one. She consistently brings one of the best calves, selling several bulls to top commercial customers, and has three daughters in our herd. 436 is confirmed AI bred to Feddes Solid State, who sold to Cross Diamond Cattle Co. in 2024. Our first Solid State calves are looking really good. Several producers that used him say his calves are their best sire group. There are several Solid State heifer calves selected for the Bet On Red sale. We are extremely excited about the future of this sire.

Bred to Feddes FCC Solid State 3602 (#4728149) on 4/15/25. Pasture exposed from 4/28/25 – 7/20/25 to Feddes Amsterdam 3212 (#4787662). Confirmed for a 1/16/26 calf.

DKK Auburn 4037 is a beautifully made female that exemplifies the generations of quality bred into the Klompier Red Angus program. She is wedge shaped, long spined, deep ribbed and very feminine, with a fantastic disposition, sound feet and udder structure – all backed by performance. She ranks in the top 36% or better across all three breed indices, and is DNA tested, both sire and dam qualifying. Sired by the renowned DKK Brute 931, and out of a striking Auburn family dam (via embryo transfer) with a 102 MPPA.

Bred to 3C Revitalize 3112 (#4844022) on 4/17/25. Confirmed for a 1/26/26 AI calf.

This bred heifer has been an eye catcher every time you enter the pasture this summer. She exhibits the best characteristic of both her sire and dam giving her lots of length, depth and thickness of body all while still having an attractive feminine look. She is the product of a first-calf heifer that bred back AI this year. She grew out phenomenally while being backed by a highly fertile and functional cow family in the Kima line. This heifer will be able to have her calf, raise it all summer, breed back and be ready to do it all over again the coming years.

Bred to ALC Remedy K60 (#4610533) on 5/13/25. Confirmed for a 2/14/26 bull calf.

This bred heifer is dark cherry red with lots of growth and functionality. She is going to be a hard one to replace in our herd but it's your chance to take advantage. Her dam is a young second-calf cow when she had her and has continued to raise quality calves over her short career while always breeding AI. Her sire, HRR Express 5142, has been a favorite in our program over the past few years passing on functional and structural traits to make quality females with the ability to raise calves of high quality. With her sire and dam, this bred heifer carries the best of both to make a phenomenal cow for the years to come.

Bred to ALC Remedy K60 (#4610533) on 5/13/25. Confirmed for a 2/14/26 calf.

MLK CRK SUN GAL 411 has a pedigree that is stacked with female-making sires and dams that have produced strong performance with convenient traits like good feet, good udders, fertility and longevity. Her dam posts a 106 MPPA with a 364-day calving interval and is still in production at 11 years of age. Her sire has numerous daughters within our herd, as well as Leland Red Angus that are moderate framed, functional cows that are bringing top calves in each fall. This bred heifer follows her pedigree posting a 109 WW Ratio and a 106 YR Ratio. She is ultrasound bred to 5L Foreman 2174-370E with a heifer calf to carry on the maternal traits that this cow line is known for.

Bred to 5L Foreman 2174-370E (#3744501) on 5/24/25. Pasture exposed from 5/27/25 – 7/3/25 to Ridge Resilience 4176 (#4957756). Confirmed for a 3/1/26 heifer calf.

Breast Cancer Awareness Fundraiser

Please join us in supporting the
 Montana Red Angus Juniors
 in their efforts to give back!

October is breast cancer awareness month.
 MTJRAA will be auctioning a basket full of self
 care goodies. All proceeds will be donated
 locally in support of breast cancer patients.

Please contact

Flashy eye appeal, muscle expression, bone, structurally correct – this heifer calf has it all. She is a very complete female that has a perfect combination of natural thickness and eye appeal. She has the tools to not only compete in the show ring but will also make an excellent momma cow in the future. Her dam is a soggy-made, deep-sided, solid-uddered female who ratios 5 @ 101 WWR and 5 @101 YWR with a 101 MPPA. Her sire, the ABS Bull, Berwald Confident, offers outcross genetics, outstanding style and performance. This female is exciting and will make a name for herself in your herd for years to come.

Here's a combination heifer. She has a unique blend of outcross pedigree with various benchmark Angus sires mixed in, cutting-edge, breed-leading EPDs and an eye-appealing profile with structural soundness and that look that catches your attention right away. On paper, she is statistically at the pinnacle of the breed with rankings in the top 8%, 18% and 14% for ProS, HerdBuilder and GridMaster, respectively. If you want to invest in a great one, then latch on to this heifer. She will take you to the front of the pack.

Oh wow! What a female we have here! She has momma cow written all over her and when you see that the next three dams behind her have an average MPPA of 104, it reinforces that you are seeing her correctly. When you study the EPDs, the pedigree with all the elite sires that are known to produce moderate, feminine, excellent-uddered, high-production daughters, you know she will be for real. The Peacha cow family has always been outstanding and done above average in our herd as well as going on to excel for other herds. Make sure that this heifer is at the top of your list. Get her bought and you won't be sorry with your purchase!

One term comes to mind when you see this heifer – Herd Bull Maker. She just has that look and is built to produce. Dark, cherry red, heavily muscled and carrying an outstanding muscle pattern, she moves with ease on an ideal set of feet and legs with solid black hooves. She is backed by two outstanding dams on both her paternal and maternal sides – both of which have produced herd bulls for registered herds! Her sire, CK Thor 2071, consistently stamps his progeny with dark-red hides, great feet and impressive body mass. His sons were the top-selling sire group in our bull sale this past year. This heifer combines elite phenotype with exceptional performance on paper, carrying an outstanding set of EPDs that make her a future donor in the making. The opportunity to acquire a female of this caliber does not come often. She has the look, the pedigree and the numbers to move any program forward. The future is wide open for this heifer and the breeder fortunate enough to take her home.

Here is an exciting opportunity to acquire one of the first and few progeny of the great new sire, PIE Cadillac 3289, and WOW is she a great one. In fact, 2512 has been my favorite all summer. I hoped Jeff didn't find her on selection day. But she and her dam came out of the hills and it didn't take Jeff long to say "that's the one." This heifer is exactly the type and kind of female we are striving to produce in our herd – long bodied, deep flanked and sided, cherry-red color and that beautiful maternal look. All that phenotype combined with her very balanced EPD profile, makes the type of cows we want. The dam of this heifer is a beautiful Seneca daughter who consistently hits a home run with her progeny. She has sons working in both commercial and registered herds, as well as daughters contributing to our own herd. Additionally, some of her progeny have been purchased through past consignment sales. 1914 will be entering our donor pen this spring after she calves. This heifer's sire is the new up-and-coming sire at Select Sires and we really are excited at the progeny we're seeing out of him. The consistency in both phenotype and performance in our Cadillac calves sets him apart. Cadillac is really checking all the boxes. We are extremely confident this heifer has a great future ahead of her, and we would like to retain a future flush at our expense and her new owner's convenience.

2520 is very feminine and balanced from front to back. When she's on the move you can really appreciate her style. 2520 has an easy, quiet temperament yet a big presence that immediately sets her apart in our heifer crop. She is full of potential to be just as powerfully built as her dam, who is one of our top bull producers. We have kept three of her sons in the herd. She could be a heifer you take on the road to show or take home to the ranch to produce your next herd sire.

6056 is a beautiful heifer calf out of dam that we purchased from Klompain Red Angus. We were hoping to get a heifer calf out of her and we did! We were also hoping Jeff wouldn't like her, but of course, he did. She comes from the Auburn cow family which is tremendously deep bodied. They have traditionally made great, tight udders. She looks to follow in those footsteps. Her sire is Collusion 306 which hails from the notable Mimi show line that produced both a National Champion Red Angus Bull and Female. She has been very calm and gentle. She would make a good heifer for a junior.

HRR Blockana 536 is dark-red heifer originating from a mating of Canadian pedigrees on the sire side, (RED Minburn Copenhagen 3Y x RED Bar E-L Bull Meg 985W bloodlines) and the Blockana cow family on the dam side. The sire, HRR Copenhagen 2265, is a bull we sold in our 2023 sale to Chad Nittler and Dvorak Bros Red Angus. The HRR Copenhagen 2265 daughters were among the high sellers in the recent Dvorak Bros dispersion last winter. Her dam, HRR Blockana 904, is a dark-red, good-uddered, good-footed dam with a 96 BW ratio and a 102 WW ratio. HRR Blockana 536's full sister, HRR Blockana 454 is bred AI and in our 2-year-old group. This mating is supported by good feet, great performance and maternal lines tracing back to TR Julian LT142, Leachman Monu 2x, Sell Coppertop 608, 5L Grand Express 5655, 5L Topgun 560-65B and of course, Copenhagen and Meg. HRR Blockana 536 should make a solid breeding piece for those looking to extend the maternal lineage in their herds with some solid genetics.

DCCC Hobo 5051 is the first female we are offering out of our donor NIO Hobo 8050 that we purchased from Niobrara Red Angus. One word describes 8050 and her offspring, and that word is POWER. These calves have all the look, style and power you could ask for! Her offspring have so much mass and dimension and stand down on a ton of bone. 5051 has been a favorite all summer. Parting with top-quality calves – especially the Red Blood daughters, who are among our favorites is never easy, but we are confident this heifer will excel in any operation.

KCC LAKME S635

A direct Relentless daughter, that comes in a dark red package. This heifer comes from the Lakme cow family, one of the few hand-selected group that the Klompier family graciously let Shelley and TJ come select a few years back. The hip and top in this heifer will not disappoint.

A younger heifer with an extremely feminine look. This heifer is out of the 2024 Sutherlin/3C Red Angus high-selling bull, 3C Revitalized 3112, owned by LB Farms LLC/ TJB Reds. Stemming from a cow family that TJ bought at the NILE several years back and showed very successfully, this is the fourth generation of the Hanna cow family here at the NILE!

Scarlet is long bodied, thick made and naturally docile. She combines power with a clean and attractive front end. She is out of the now deceased Bieber Stockmarket E119, which helps her to excel in her carcass characteristics. In the top 12% for Marbling, top 38% for REA and 24% GridMaster. She is backed by the Redland Red Angus cow family. Her dam, Red Nexi, was Joe's Champion 4-H heifer. She is a deep sided, broody female with an excellent udder and a very good disposition. Scarlet has both the showing appeal and the maternal strength to make a productive cow.

History of the Montana Red Angus Association

The Montana Red Angus Association (MTRAA) was officially organized on November 3, 1972. Several progressive breeders met at the Rainbow Hotel in Great Falls, MT. It was there that they elected officers and established by-laws. The first officers for the ensuing year were – President: Dave Cawlfeld, Vice-President: Jim Leachman, Secretary/Treasurer: Pete Stoltz.

MTRAA has a total membership of over 65 members, which includes both registered and commercial breeders from across Montana and a few other states. Annual dues are \$50 and payable by January 1st of the current year. Dues are to be sent to the Secretary/Treasurer. An annual meeting is held each October, in conjunction with the NILE. MTRAA happenings and membership listings can be found on our website at www.montanaredangus.org. We can also be found on Facebook.

Montana ranks as the largest register of Red Angus cattle in the Red Angus Association of America, with over 8,029 head registered this last year. Approximately 3,086 head of bulls were transferred to other breeders this last year. Montana is ranked ninth for regular memberships with 118 Montana members in the national organization. We also have 39 Montana Junior members within the RAAA, ranking us 10th.

MTRAA has always been progressive and leads the way in many programs. They are proud sponsors of the NILE Prestigious Red Angus Sale, which started in 1982. The sale is held in conjunction with the NILE annually in

October. This was the first sale to promote Red Angus cattle being sold by areas breeders. MTRAA is a proud sponsor of youth and established the County Buckle Program in 2000. This program honors all county fair champions that show cattle with Red Angus genetics. These champions are awarded a belt buckle for their achievements prior to the NILE sale. A female futurity was established in 2009. Current NILE sale animals and progeny of past sale animals are eligible to participate. This was established to showcase that the animals purchased at the NILE Sale work in the “real world.” The futurity is held annually in October at the NILE in Billings, MT. We also sponsor the Montana Stock Grower's Association Cattleman's College each year in Billings, MT.

In 1977, the first “Feeder Calf” sales were held in Billings and Butte. These sales have expanded to Three Forks, Miles City and Glasgow. October has been dubbed “Red October” as thousands of cattle are sold in these sales.

A Montana Tour is held in the fall on a rotation system that enables attendees to view cattle from both registered and commercial breeders across the state. The state is divided into seven regions, with the breeders in the area hosting the event. We invite you to join us for this annual event of extraordinary camaraderie, plenty of food, gracious hosts, good cattle and fun.

Experience Montana's Red Angus hospitality and contact one of our breeders today!
